

FONDATION UNI-AIDE FOUNDATION

ENSEMBLE NOUS IRONS LOIN TOGETHER WE WILL GO FAR

PRESS RELEASE

For immediate release

St. Paul's River, Québec (April 24, 2017) – The sound of music was heard loud and clear yesterday, and the generosity of people was evident from the east coast to the west, with individuals and organizations from the Lower North Shore and Labrador to British Columbia giving their time and financial support to the population of the Lower North Shore living with health and/or social issues.

The 5th Annual Uni-Aide Foundation Radiothon was presented in collaboration with CJTB Tête-à-la-Baleine, CFTH Radio Harrington Harbour, CJAS Radio St. Augustine and CFBS Radio Blanc-Sablon that resulted in over \$8,750.00 being raised to support our mission. The Uni-Aide Foundation would like to acknowledge and thank: the staff and management of the four radio stations, the talents of over twenty-five musicians from the Lower North Shore, the dedication of fifteen telephone volunteers, the generosity of twenty-four businesses who provided gift certificates, and of course, the individuals and businesses who made pledges in support of those in need in their community. The Uni-Aide Foundation would also like to give special recognition to Chez Barney's for their donation of \$1,000.00, and, the Coasters Association for their significant organizational support which enables the Foundation to continue its important work.

The Foundation provides financial support to individuals and communities through the Lower North Shore Health Fund and the Lower North Shore Social Program Fund; funds that are making a difference in the lives of those dealing with illness as well as creating opportunities and brighter futures for our children, youth, adults and seniors. Since its inception in 2012, the Lower North Shore Health Fund has distributed \$61,941.89 in assistance through 145 requests, and the Lower North Shore Social Program Fund has distributed \$34,058.95 in assistance through 5 requests, since it came on-line in 2015.
